Description

A traditional Engadine home, reimagined for contemporary alpine living. Chesa Amur is an exceptional mountain residence in Celerina, fully renovated in 2022 with great respect for local heritage and a refined appreciation of contemporary design.

The traditional sgraffito façade preserves the architectural character of the region, while the interiors reveal a beautifully considered blend of natural materials, designer furniture and carefully selected pieces from Milanese art galleries.

At the heart of the home, the living and dining areas are centred around a remarkable fireplace. A bespoke matte-black Boffi kitchen, a sculptural staircase, and recurring architectural motifs such as arches and skylights create a distinctive sense of warmth, light and understated elegance.

The residence offers seven bedrooms, thoughtfully arranged across several floors to accommodate families in comfort and privacy. The master suite features a private bathroom with shower and bathtub, together with its own balcony. Several further bedrooms benefit from en-suite bathrooms, while additional shared facilities provide flexibility for guests.

A jacuzzi pool, steam room and billiard area offer the perfect setting to unwind after a day in the mountains. A panoramic TV lounge on the upper floor provides a wonderful retreat with sweeping mountain views. Outside, a generous sun terrace and garden invite guests to enjoy the alpine surroundings. A garage for up to four cars and a dedicated ski room complete the property.

Ideally located just 350 metres from the Celerina–Marguns ski lift, Chesa Amur offers convenient access to one of the region's finest ski areas.
